

Beacon Wind Survey Update

Beacon MetOcean Buoy Deployment November 2021

RPS Group, Inc. will be conducting operations in the Massachusetts Offshore Wind Energy Area, specifically OCS-A 0520, for the Equinor Beacon Wind project. Operations will consist of upcoming buoy tow-out route, buoy deployments, and subsurface mooring deployments, commencing early November 2021

The buoys and moorings will be deployed for 2-years. Position coordinates will be updated to the Local Notice to Mariners following the deployments and at each 6-month maintenance visit as necessary.

Berto L Miller will be conducting the MetOcean deployment

Name: Berto L Miller

MMSI: 338454000

Projected Coordinates

Name	Latitude	Longitude	LORAN
Current Mooring #1 (SW Corner)	40° 42' 18.962" N	70° 41' 19.988" W	14317.5 - 43614.7
Current Mooring #2 (NE Corner)	40° 56' 37.728" N	70° 23' 8.481" W	14171.4 - 43695.5
LiDAR Buoy	40° 49' 41.949" N	70° 31' 58.456" W	14233.5 - 43654.6
Met Buoy #1 (SW Corner)	40° 42' 50.428" N	70° 40' 40.206" W	14312.0 - 43616.5
Met Buoy #2 (NE Corner)	40° 57' 05.655" N	70° 22' 32.781" W	14158.3 - 43701.7
